EDUCATION

Daffodil International University

B.Sc. in Software Engineering

Dhaka, Bangladesh

Jun. 2024 – Jun. 2028

Rajbari Government College

Higher Secondary Certificate (Science)

Rajbari, Bangladesh

Jan. 2021 – Jan. 2023

TECHNICAL SKILLS

Languages: C, Python, Java, JavaScript, SQL, Bash

Frameworks & Libraries: React, Node.js, Express, Flask, Streamlit, Pandas, NumPy, Scikit-learn, OpenCV, YOLO, MediaPipe

Databases: SQLite, MongoDB, MariaDB

Tools & Technologies: Git, GitHub, Docker, Linux, Oracle Cloud, Vercel, Supabase

Core Competencies: Full-Stack Development, AI Integration, Machine Learning, Computer Vision, System Design

PROJECTS

ClusterPilot | Python, Kubernetes, Docker, Prometheus, Redis

Jan. 2026 – Present

- Built an autonomous GPU resource-optimization platform for Kubernetes-based AI clusters.
- Implemented idle-GPU forecasting, safe resource reclamation, and priority-based workload scheduling.
- Developed real-time dashboards for GPU utilization, cost analytics, and cluster management.

TrashHawk | Python, Flask, YOLO, OpenCV

Oct. 2025 – Present

- Developed an AI-powered waste-monitoring system that detects littering violations from surveillance footage using YOLO and OpenCV.
- Built an offline video-analysis and automated evidence-reporting pipeline for flagging violations.
- Secured university funding to advance the project from prototype to deployment.

ColabCore | React, Node.js, Python, MongoDB, Scikit-learn

2026 – Present

- Developed an AI-powered platform connecting students, universities, and recruiters through intelligent opportunity matching.
- Built ML recommendation and NLP pipelines for resume parsing, semantic skill extraction, and personalized recommendations.
- Developed role-based dashboards for placement tracking, analytics, and industry skill-demand forecasting.

SakibAI | Python, Streamlit, SQLite, Ollama, OpenAI API

2026 – Present

- Developed a modular AI workspace integrating Ollama, OpenAI, Groq, and Together AI through a unified interface.
- Built document intelligence, an AI study assistant, and a personal knowledge base with local document search.
- Engineered a privacy-first architecture with SQLite persistence, Docker deployment, and multi-format export support.

LEADERSHIP & ACHIEVEMENTS

Co-Founder, Thirst For Science

Apr. 2019 – Jul. 2024

- Co-founded a STEM outreach community, organizing workshops and competitions that engaged young learners through hands-on physics experiments.
- Secured funding from sponsors to support club events.

Debating & Science Olympiads

- Won multiple district-level championships in Classical and Parliamentary debate.
- Multiple-time national award recipient in Mathematics and Physics Olympiads.
